Birthing Center Dolpa, Nepal

In Nepal, twelve women die in childbirth every day. Most of them by bleeding to death. Seventy-five Nepali babies die every day, usually in the first 24 hours following their. ODFL is partnering with One Heart World-Wide to build a \$12,000 birthing center in Dolpa. This will help ensure a safe birth for both infants and their mothers.

Dolpa is a high altitude region of western Nepal, surrounded by the Himalayan mountains and is culturally Tibetan.

Bigger People. Better World.
