Monte grande School San Ramon, Nicaragua

Monte grande is an extremely poor community of 480 people in the coffee growing hills near San Ramon, Nicaragua. The school holds classes for 110 students, grades 1 through 8, in a 20 year old community storage room which leaks water in the winter. During harvest time the room is used to store hundreds of sacks of coffee, making classroom instruction difficult. ODFL, with its partner organization Seeds of Learning, will help to construct a new classroom for the 2nd and 3rd grade students. The project will also include a kitchen and bathroom. The project's funding is supported by Fundacion Sueno de la Campana, a Spanish foundation working with rural cooperatives in Nicaragua. Community members will contribute approximately 25% of the project's \$12,000 cost through volunteer labor.

Bigger People. Better World.
